

D & A Building Services tapped to clean Orlando Utilities Commission facilities in Orange County

LONGWOOD, Fla., February 11, 2009 — D & A Building Services Inc. has secured a nearly \$1.5 million annual contract from Orlando Utilities Commission (OUC) for full-service janitorial services for office buildings, parking garages, warehouses and substations at 53 locations throughout the Utility's service area. Facilities included the contract are Reliable Plaza administration building and parking garage in downtown Orlando, as well as the Pershing complex, St. Cloud complex, Camp Down, Camp Apollo and 27 substations. OUC's contract requirement to comply with Green cleaning standards was business as usual for D & A which only uses recycled paper products and environmentally friendly cleaning products on all facilities it maintains throughout the nation.

Previously, D & A Building Services provided construction clean-up services during the construction of Reliable Plaza.
